## ***The REAL Housing Difference***

- **Solar energy makes your home a little power plant**  
*Receive a rebate up to NIS 1,500 from the government*
- **Speed of construction**  
*Order now and be in your home in 13 weeks*
- **Insulation**  
*4x the standard required or found in traditional Israeli building*
- **Award-winning sustainable house**  
*Twice judged the best solar house in international competition*
- **Regba Kitchens**  
*Sustainable kitchen materials made in Kibbutz Regba in northern Israel*
- **Price includes energy-efficient appliances and solar, valued at 100,000 nis**
- **Qualifies for Israeli green building standards**
- **ISO 9000 qualified**
- **Unique in Design Process**  
*Unlike other builders, architectural engineers assist you in adjusting our standard plans based upon your needs and REAL Housing's constructability requirements. Our construction manager (also an architectural engineer) not only approves the final design, but also supervises the actual building of your home down to the last detail.*
- **Design Flexibility**  
*Our standard models are adaptable to specific needs*
- **Best value for your money**  
*Prices are substantially below market appraisal*
